January ASTD Nebraska Newsletter for Review

Hello [firstname],

Happy 2011! I hope that everyone has a safe and healthy start to the new year.

The start of a new year is always an exciting time. A time to renew, rededicate, and start again. The ASTD Nebraska board is committed to helping you meet your professional development goals. We are working on increasing the member resources and leadership opportunities. Be sure to take a look at our web site and see what is available to you. Reach out to a board member and let them know what you need.

With the start of the new year, we would like to thank our 2010 ASTD Nebraska board for all their hard work and dedication. We would also like to welcome the 2011 ASTD Nebraska board and thank them for taking the leap. There are many opportunities as well for our members who would like to get more involved. If you have an interest in taking on one small task such as writing a newsletter article, updating a web page, creating a marketing piece, or something even more, please talk to any board member. Completing even one small task can be a very rewarding experience.

As always, this is your newsletter, so please let me know how to make it work for you.

[ASTD Nebraska Holiday Social](#)

Author: Barb LeRouge

Release Date: Tuesday, Dec 28 2010 2:00 PM

The Joslyn Castle was beautifully decorated for the holidays, and all who attended were in the holiday spirit. Joe Brogie mingled among attendees, amazing and baffling them with his close-up magic. He even entertained us with his unique style of mentalism with some willing volunteers. We would especially like to thank Cynthia Way of Lead the Way Consulting and our sponsor, Phasient Learning Technologies, for their displays and information. Everyone took advantage of the event to... [\[More Info\]](#)

[Putting the Activity Back into eLearning](#)

Author: Shelly Whittaker

Release Date: Tuesday, Dec 28 2010 11:00 AM

It's easy to get into an interactivity rut-using the same few games and activities in every course regardless of the learning objectives or desired learner behavior, or falling back on standard drag-and-drop or Jeopardy-style games because they are easy to create, without considering whether they best address the content or purpose. Successful instructional designers and course developers are always searching for creative activities that teach concepts well. Dig out of that rut and... [\[More Info\]](#)
