

Director of Website

Melissa Turner
Easel Solutions
Email Melissa

General Responsibilities:

As Director of Website, the goal of this position is timely and accurate website postings, making our website a valuable tool for membership and an enticing organization to prospective members. Promote recognition of and respect for the chapter and its membership within the Omaha and Nebraska business communities.

Bio: **Melissa Turner's** training career began back in college where she combined her love of science, conservation and education by earning a Bachelor's degree in Ecology with an emphasis in Natural Interpretation. While her interest in science and the outdoors remains strong, her career has taken her down a path that is more focused on software and technology. Three years ago she began her training career at Easel Solutions, the Adobe Certified Training Partner of Nebraska. A year later she took on the role of Operations Manager at Easel Solutions. Luckily, she still manages to log plenty of hours in the classroom and loves the opportunity to engage and interact with students. She is passionate about eLearning development and regularly teaches both public and private classes on Adobe Captivate as well as various Microsoft applications.

Melissa joined ASTD Nebraska in January of 2010 and quickly realized the best way to get involved is to just dive in and volunteer. She began volunteering on the Web Committee last summer and has enjoyed the opportunity to network and share ideas with other ASTD members. She is looking forward to managing ASTD Nebraska's website. Please feel free to contact her with any suggestions or ideas for improving the site.
