President's Perspective

It is that time of year again when our chapter transitions from one President to the other and as I sit back and reflect on the experience, I am amazed at how personally valuable this experience has been. ASTD Nebraska has and will continue to be one of the best organizations to which I've ever had the pleasure to belong.

What makes our chapter great is the people; the members, volunteers, and leaders who contribute their talents, skills, and passion to the workplace learning and performance community. Each of you demonstrate a profound dedication to enhancing the skills and knowledge of your organizations, peers, and fellow members. As agents of change, our 350+ members support Omaha area businesses' ability to serve their customers, expand their business, and evolve with the advances in technology, business strategy and cultural composition. Our members are the reason ASTD Nebraska succeeds and it is through your passion, commitment and talent we are able to bring the learning community at large the highest quality of services, professional development and support.

As President, it is has been a unique honor to serve this chapter. I have been able to broaden my personal and professional horizon and relish in the accomplishments of my leader peers, chapter volunteers and members at large. I've made life-long professional and personal relationships that will continue to reap benefits for me in the future.

2006 generated unprecedented opportunities and challenges for the ASTD Nebraska. The year began with a complete transformation of the Board of Directors as our tenured leaders moved on to other opportunities outside of ASTD and new talent moved into almost every Vice President and Director position. Our ability to handle such significant change was due in part to the awesome talent and passion of our new board, the legacy of our previous board members and the influx of new chapter volunteers. I want to personally thank each and every one of you for your contributions and impact. It would not have happened without you!

This year's strategic plan has born many fruits and will continue to be our guide for years to come. It has been a year of accomplishment and recognition for our chapter as well. We were recently notified that ASTD Nebraska has been selected as Chapter of the Month for November by ASTD National. This recognition will be posted on ASTD National's Website.

As I begin to look forward to serving as your Past-President, I would like to assure you of my commitment to you, our members. I will continue to contribute to our chapter's ability to provide the best products, services and programs for workplace learning and performance professionals.

Thank you for all the opportunities you have given me.

Yours in learning,

Patricia Harrold, CPLP

How do you celebrate learning? That's the question we are asking. We want to hear from you! We want to know your successes, your achievements, your ways of celebrating learning.

Each and every one of us knows the true value of learning; otherwise we wouldn't be in this profession. Let's take this time to share with each other. If you have a learning story that you would like tell, send it to us. If you or your team has achieved a great milestone, let everyone know.

If you have a wonderful way of recognizing or celebrating learning, teach us your way too.
